

VICTOR HUGUES

Technical Support Engineer

EXPERIENCE

Dec. 2019 – 2022: Russian Presidential Academy of National Economy and Public Administration (Moscow)

Linux HPC on-premises server Admin (Nvidia Tesla Platform)

I was the lead administrator to setup, configure and monitor a high-performance computing platform serving 20+ researchers.

Zabbix Monitoring Deployment

Planned, setup and configured a Zabbix monitoring solution with the explicit goal of presenting key performance indicators to non-technical staff.

Dec. 2009 – Dec. 2019: Institute for Economic Policy (Moscow)

Full Stack Developer

I developed 6 web-based productivity tools, used by 150+ users. I solved various administrative challenges through highly focused web apps. That involved planning architecture, choosing the most suitable technologies, development, and providing user training and support. Support to colleagues and external stakeholders through ticketing system, calls, and live screen sharing when relevant.

Windows Admin Assistant

I created the Master Windows 10 image, successfully managed the Windows 10 migration, the deployment of 200+ workstations. Troubleshooting and technical support to support daily IT operations

Sept. 2016 – 2022: UN Food and Agriculture Organization (Moscow)

ICT Assistant – part time

I was the IT focal point for an office of 15 people. I was directly responsible for inventory, procurement, deployment, maintenance, and disposal of IT assets. I was first line of support, reported to HQ, liaised with local UN agencies, supervised events, and globally ensured reliable IT performance for the office.

Employee Recognition Awardee – 2021

EDUCATION

Sept. 2007 – June 2008

Computer Systems Management – Institute of Technology Carlow, Ireland

Sept. 2005 – June 2007

Technical University Degree – Services and Communication Networks – Institute of Technology Béziers, France
